

Overview

All Wellstar team members now have access to on-demand, online training from LinkedIn Learning. This job aid describes how to find, enroll in, and access LinkedIn Learning courses via Workday.

Step By Step Instructions

1. To begin, click the Learning app from your Workday MENU.

Then, click **Discover**.

The screenshot displays the LinkedIn Learning interface within the Workday system. On the left, a navigation menu is visible with the 'Discover' option highlighted in yellow and marked with a circled '1'. The main content area features a header 'What will you learn today?' and a section titled 'Based on Your Interests' with a 'View More' button. Below this, five course cards are displayed, each with a thumbnail image, title, duration, and a 'View Course' button. The courses are: 'Learning HTML Canvas' (2 hours), 'Becoming Indistractable' (34 minutes), 'Virtual Tours: Video, Photo, and VR' (3 hours), 'Windows 11 for IT Support: Advanced Troubleshooting' (2 hours), and 'Programming Object-Oriented' (3 hours). At the bottom, there is a section for 'Learning Assignments Not Required' with a small illustration of a person at a computer.

2. Click **Browse Learning**.

The screenshot shows the 'Discover' page of the Wellstar Learning Catalog. The left sidebar contains navigation options: Learning Admin, Learning Home, My Learning, and Discover (highlighted). The main content area features a 'Discover' header, a search bar, and a 'Browse Learning' button circled in yellow with the number 2. Below this is a 'Based on Your Interests' section with a 'View More' button and five course cards: 'Learning HTML Canvas' (2 hours), 'Becoming Indistractable' (34 minutes), 'Virtual Tours: Video, Photo, and VR' (3 hours), 'Windows 11 for IT Support: Advanced Troubleshooting' (2 hours), and 'Programming: Object-Oriented' (3 hours). Each card has a 'View Course' link.

3. To narrow your results to only LinkedIn Learning courses, click **Content Provider**.

The screenshot shows the 'Browse Learning Content' page. The left sidebar has a 'Current Search' section with filters: 'Access Type' (Requires Enrollment, On Demand), 'Content Provider' (highlighted with a yellow circle and the number 3), 'Course Offering Instructors', 'Course Offering Locations', 'Created by Worker', 'External Content Type', 'Language', and 'Rating'. The main content area displays a list of search results for '.NET' courses, including '.NET 6 SDK Advanced Exploration: Attributes', '.NET 6: First Look', '.NET 7 First Look', '.NET Big Picture: Front-End and UI Development', and '.NET Deep Dive: NuGet Package Manager'. Each result includes a course icon, title, description, and enrollment status.

4. Click the checkbox to select **LinkedIn Learning**.

.NET 6 SDK Advanced Exploration: Attributes

Attributes add metadata to your programs and allow you to annotate given types, assemblies, modules, and methods. They're especially handy if you're an advanced .NET developer, as they lend your code base more declarative power with the additional services of .NET tools and code libraries. In this course, senior LinkedIn Learning instructor Walt Ritscher shows you how to use predefined, standard .NET attributes as well as how to create custom attributes on your own. Learn about it...

.NET 6: First Look

Curious about what the release of .NET 6 means for developers? Join instructor Matt Mihner as he goes over the most notable updates and new features in this long-term support (LTS) release. This LTS release—the first to include the unified .NET platform—includes changes that enhance the web, desktop, and cross-platform application development experience. Learn about the .NET Multi-Application User Interface (.NET MAUI), which enables cross-platform UI definition with native renderi...

.NET 7 First Look

If you're a .NET developer, you probably already know about the latest release of .NET, the widely used open-source developer framework from Microsoft that lets you create applications across platforms from anywhere. Get ready to dive in deeper and take a closer look at .NET 7, in this survey course with senior LinkedIn Learning instructor Walt Ritscher. Walter gives you a tour of the latest version of the framework and its features and functionalities, so you can start planning for the next...

.NET Big Picture: Front-End and UI Development

When you think about what makes an application successful, it's hard not to picture its user interface (UI). But as a developer the choices can get overwhelming, and the platform you use to create your UI often looms large as a question for your business. In this course, instructor Walt Ritscher walks you through the benefits and tradeoffs of each option when you're building a UI on the .NET Framework. Discover the wide range of choices available to you as a .NET developer, so you can pic...

.NET Deep Dive: NuGet Package Manager

Most programming languages have an associated package management system that helps find and install code libraries and their dependencies. For the .NET developer, NuGet is the official package manager. In this course, longtime .NET programmer Walt Ritscher looks at the NuGet integration within Visual Studio and the Visual Studio command line. Walt shows you how to install, update, and remove packages from .NET projects, as well as how to search the public NuGet Gallery...

5. Click on a **course** in the search results to see more information and enroll.

 You can add additional filters and type keywords in the search bar to find courses that interest you.

Microsoft Teams Essential Training (2022)

Discover the core features of Microsoft Teams and see how you can bring together colleagues, create conversations and content, and collaborate more effectively. Join instructor Nick Brazzi as he walks you through the essentials of using Teams, starting with basic setup, creating new teams, and joining existing teams. Nick covers organizing teams and members and shows how to conduct conversations. He explains how to create scheduled meetings or initiate impromptu meetings inside...

Securing Microsoft Teams

Microsoft Teams has become incredibly popular, especially over the last few years. Products like Teams have helped to keep the business world connected, offering a solution for challenging times. But the increase of remote and hybrid work environments gives rise to a new set of organizational needs. While Teams offers many different options for communication, both within and outside of an organization, it also presents a much higher number of possibilities for business-critical...

Microsoft Teams Quick Tips

Microsoft Teams, the communication and teamwork hub of Microsoft 365, was designed to help coworkers meet, connect, and share their knowledge with others. In this course, instructor Nick Brazzi shares a series of concise tips that help Teams users sharpen their skills and leverage all that this communication tool has to offer. Each video is around one to two minutes in length, so you can pick up insights in your spare moments. Learn tricks for working with messages and teams.

Microsoft Teams for Team Owners

Microsoft Teams is becoming a go-to tool for collaborating at work. Within Teams, individuals with the team owner role have access to controls and settings for team management that are not available to typical users or team members. In this short...

6. Click **Enroll**.

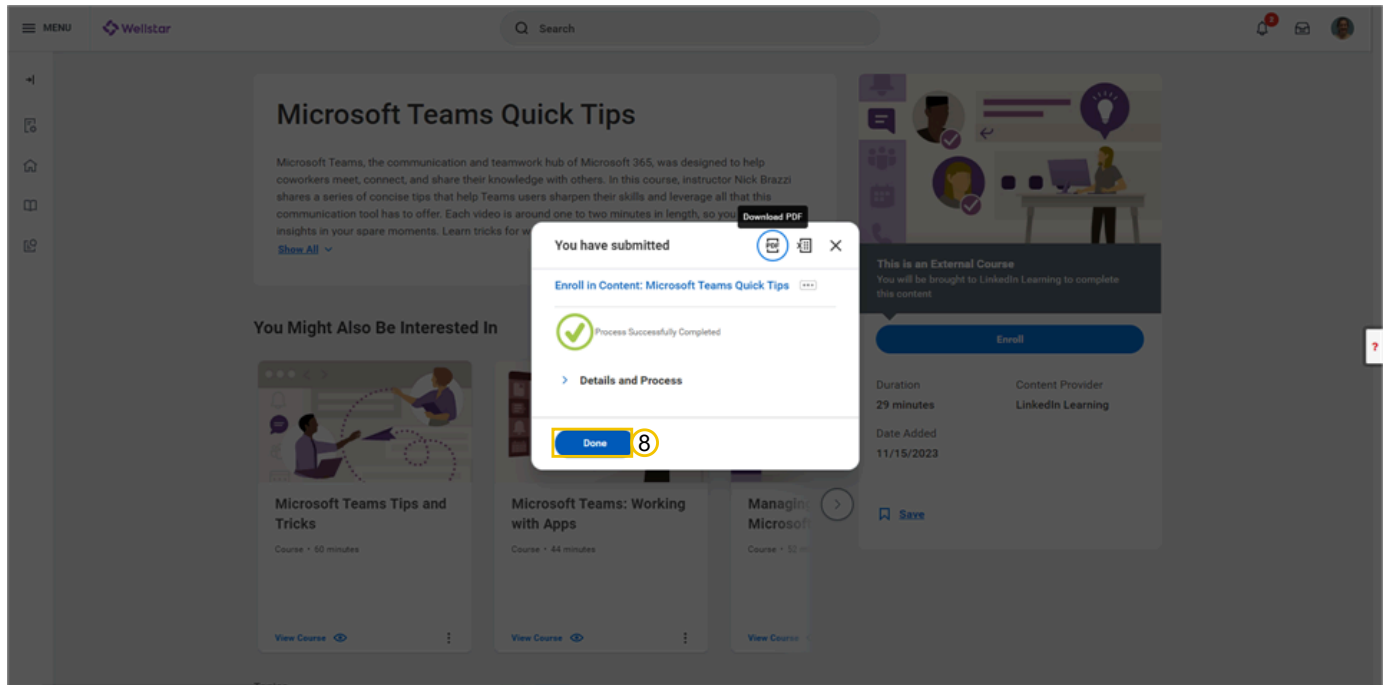

The screenshot shows the LinkedIn Learning interface for the course "Microsoft Teams Quick Tips". The course description states: "Microsoft Teams, the communication and teamwork hub of Microsoft 365, was designed to help coworkers meet, connect, and share their knowledge with others. In this course, instructor Nick Brazzi shares a series of concise tips that help Teams users sharpen their skills and leverage all that this communication tool has to offer. Each video is around one to two minutes in length, so you can pick up insights in your spare moments. Learn tricks for working with messages and teams, customizing the interface, running meetings, sharing files, using the Do Not Disturb feature, and more." Below the description, there are three recommended courses: "Microsoft Teams Tips and Tricks" (60 minutes), "Microsoft Teams: Working with Apps" (44 minutes), and "Managing Microsoft Teams" (52 minutes). On the right side, a course details panel is open, showing the "Enroll" button highlighted with a yellow circle and the number 6. Other details include: Duration: 29 minutes, Content Provider: LinkedIn Learning, Date Added: 11/15/2023, and a "Save" button.

7. Click **Submit**.

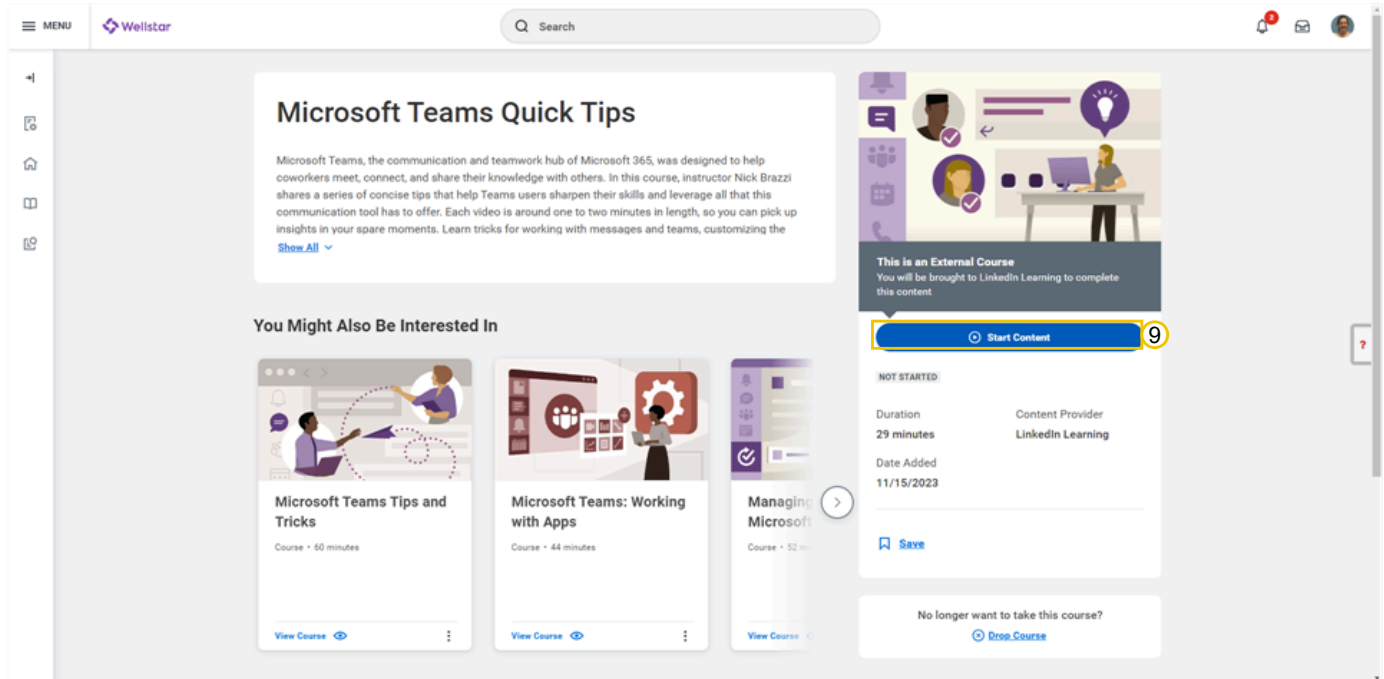

The screenshot shows the same LinkedIn Learning interface as in step 6, but with a "Review" dialog box open. The dialog box contains the course title "Microsoft Teams Quick Tips" and the same description as above. At the bottom of the dialog box, the "Submit" button is highlighted with a yellow circle and the number 7, and the "Cancel" button is visible to its right. A "Close" button is located in the top right corner of the dialog box. The background content is dimmed.

8. Click **Done**.

Workday will send an email to your Outlook inbox letting you know you've been enrolled and the course will be added to your Workday "My Learning" page.

9. To access the course, click **Start Content**.

10. Click **Launch Content**.
